

Digital Pathshala

An initiative by

Bangla Susthayi Krishi Foundation

Start Date : 23rd January, 2026

Khejuria, Bankura, West Bengal, 722136

Digital Pathshala is a digital literacy initiative designed to empower rural and underprivileged students with essential computer, communication skills and biodiversity conservation. In today's rapidly evolving world, technology plays a crucial role in education and future career opportunities. This program strives to make learning accessible, engaging, and enjoyable for every learner.

Motive of Digital Pathshala :

- a. To spread digital literacy.
- b. To contribute to **SDG 4(Quality Education)** through teaching basic *Computer skills*, *English communication skills* and providing mentorship sessions for *Career Guidance* in their learning journey.
- c. To develop creativity, confidence and critical thinking through different activities.
- d. To prepare students for the digital future not only through education but also by promoting online responsibility and security through Cyber Safety Awareness Sessions.

- e. To contribute to **SDG 3(Good Health and Wellbeing)** by conducting monthly sessions on menstrual health awareness, preventive healthcare, and first aid training for students and local communities, led by expert doctors and healthcare professionals.
- f. To contribute to **SDG 5(Gender Equality)** by promoting gender equality and women's empowerment through education and community awareness initiatives that highlight the importance of women's education and equal opportunities for all.
- g. To contribute to **SDG 2 (Zero Hunger), SDG 12 (Responsible Consumption and Production), SDG 13 (Climate Action), and SDG 15 (Life on Land)** through biodiversity conservation, climate awareness, sustainable food-growing practices, and promotion of environmentally responsible lifestyles.

A Mission to Connect Every Child's Heritage to Their Future.

In villages across India, there is a generation of bright, ambitious children. The Digital Pathshala is our plan to build a bridge between their world and the world of opportunity; a bridge founded on digital skill, cultural pride, and the power of the great story.

Currently, we are providing digital classes to 19 students, divided into two groups:

1. Classes 4 to 8 (10-11 AM) : 13 Students Registered
2. Classes 9 to 12 (11 AM-12 PM): 06 Students Registered

From Digital Exclusion to Expertise.

Curriculum Focus: Practical digital literacy, computer applications, coding fundamentals, and communication skills with an emphasis on creativity, critical thinking, cyber safety, health awareness, and sustainable living.

Impact: Empowering students, and communities with digital, communication, and life skills that build confidence, encourage responsible citizenship, and open pathways to higher education, employment, entrepreneurship, and sustainable living.

Work Flow:

Our model combines expert mentorship with consistent, hands-on practice to create a dynamic learning environment.

The Sunday Masterclass	The Practice Lab
-------------------------------	-------------------------

a. Free of cost classes (10-12 PM) b. High-level mentorship and Q&A sessions delivered via Google Meet by college students and professionals from IITs, NITs, and other top institutions.	a. Just 5 Rs. for using Lab b. Five days a week (e.g., Monday to Friday) are dedicated to hands-on practice and project work.

Team Member:

NAME	ORGANISATION	DESIGNATION	RESPONSIBILITY
Anirban Das	Bangla Susthayi Krishi Foundation	President	Strategic leadership, institutional oversight, stakeholder relations, and governance supervision
Sumit Tewari	Bangla Susthayi Krishi Foundation	Secretary	Administrative oversight, statutory compliance, project authorization, and organizational coordination.
Lakshman Chandra Tewari	Bangla Susthayi Krishi Foundation	Treasurer	Financial management, budgeting oversight, fund utilization monitoring, and financial compliance
Swagata Subuddhi	Bangla Susthayi Krishi Foundation	Assistant Secretary, Project Managing Director	Overall project management, partnerships, fundraising, and strategic development
Goutam Mandi	Bangla Susthayi Krishi Foundation	Vice President, Project Field Coordinator	Field operations, community engagement, beneficiary coordination, and implementation support
Ghurni Bhattacharya	Bangla Susthayi Krishi Foundation	Project Advisor and Policy Maker	Policy guidance, program design, and impact strategy

Saurabh Jain	Bangla Susthayi Krishi Foundation	Project Advisor and Policy Maker	Strategic advisory support, project development, and institutional guidance
Kamini Chouhan	Bangla Susthayi Krishi Foundation	Project Officer	Day-to-day project administration and operational coordination
Poushali Das	Bangla Susthayi Krishi Foundation	Project Mentor	Student mentoring and educational support
Kaushiki Halder	Bangla Susthayi Krishi Foundation	Project Mentor	Student mentoring and educational support

Beyond a Nominal Fee; Building a Sense of Ownership (₹5/Day)

(Approximately ₹60-₹65 per month)

1. Encouraging Responsibility and Value

A small contribution helps build a sense of ownership and responsibility among children and their families. When people invest, even in a modest way, they are more likely to value and actively engage with the opportunity.

2. Supporting Sustainable Operations

The collected funds support essential operational costs such as electricity and internet services. This approach enables each center to operate independently and remain sustainable beyond the initial setup phase.

The Ripple Effect: Fostering a Self-Sustaining Learning Community

Alumni Mentor Framework:

As students complete their education up to class 12th within the program, they are encouraged to return as junior mentors and peer leaders. In this role, they guide and support younger students, particularly those in class 4 to class 8, thereby creating a continuous cycle of learning, growth, and contribution.

Program Cycle Overview:

Stage-1: Learner (class 5)

Students begin their educational journey, building foundational knowledge and skills.

Stage-2: Graduate (class 12)

Students successfully complete the program, equipped with academic competence and personal development.

Stage-3: Mentor

Graduates re-engage with the program as mentors, sharing knowledge and guiding the next generation.

Cycle Continuation : Giving back

This transition from learner to mentor reinforces a culture of contribution, ensuring the program's sustainability and long-term impact.

Transform One Room into Beacons of Change Across 300+ Villages in India

The Digital Pathshala, an initiative of the Bangla Susthayi Krishi Foundation, goes far beyond a conventional education program. It lays the groundwork for a scalable, state-wide ecosystem that nurtures aspirations, builds practical skills, and preserves cultural heritage.

What started as a single pilot is envisioned to grow into a network of 300 + learning centers, each acting as a catalyst for meaningful change across rural communities in West Bengal.

By supporting this initiative, you are not just setting up a computer lab—you are investing in a long-term vision that empowers communities, strengthens local capacity, and creates a sustainable future for generations to come.

A High-Impact, Cost-Efficient Pilot Initiative

Round 01, Funds Raised to Launch the Project : Rs. 23,300

This initiative is designed to maximize impact while maintaining cost efficiency. Every contribution is strategically allocated to create a strong and sustainable foundation for a fully functional digital learning center.

Breakdown of Round 01 Fund Allocation :

Digital Infrastructure	Refurbished desktops or laptops (i5 processor, 8GB RAM) to support effective digital learning.	20,500 rupees
------------------------	--	---------------

Operational Buffer	Reserved for unforeseen or incidental expenses and monthly operational expenses which includes internet connectivity expenses, electricity expenses etc.	2800 rupees
--------------------	--	-------------

Value Proposition:

Every rupee invested directly supports the creation of a scalable and sustainable model for community-driven education. This thoughtful allocation ensures that each center is not only set up effectively but also equipped to create long-term impact.

Impact Achieved So Far (January 2026 – June 2026)

Over the first 05 months of implementation, Digital Pathshala has successfully established a functioning rural digital learning centre in Khejuria, Bankura, providing students with access to technology, mentorship, and skill-based learning opportunities.

Key Progress Indicators

- 13 structured learning sessions conducted, including:
 - 1 Orientation Session
 - 1 Assessment/Examination Session
 - 1 Special Climate Awareness Session
 - 10 Regular Digital Literacy Sessions every Sunday.
- Two student batches established:
 - Batch 01 (Classes 4–8): Average attendance of 9 students per session
 - Batch 02 (Classes 9–12): Average attendance of 4 students per session
- Students regularly access the Practice Lab at their convenience, with supervised hands-on learning opportunities available on the weekdays.

Learning Outcomes

Students participating in the program have gained foundational digital literacy skills, including:

- Identification and understanding of computer hardware and accessories.
- Basic computer operations and responsible use of digital devices.
- Introduction to Microsoft Word and document formatting.
- Creation of professional documents using headings, paragraphs, alignment, and formatting tools.
- Essay writing and content drafting using digital tools.
- Improved confidence in using computers independently.

Community & Awareness Impact

- Successfully introduced climate awareness education through a dedicated environmental awareness session.
- Created a safe and inclusive learning environment for rural students with limited access to digital resources.
- Increased student interest in technology, digital learning, and future educational opportunities.

Building the Foundation for Long-Term Impact

While Digital Pathshala remains in its early stages, the pilot has demonstrated consistent student engagement and strong community acceptance. The infrastructure established through Round 01 funding has enabled regular classes, practical learning opportunities, and the development of a sustainable model that can be strengthened and expanded through Round 02 support.

Round 02: Funding Requirement to Sustain and Scale the Project

Target Fund Requirement: ₹80,000

Allocation Plan for Round 02 Funding Requirements :

Category	Purpose	Amount(₹)	Impact
----------	---------	-----------	--------

Digital Infrastructure Expansion	Refurbished desktops or laptops (i5 processor, 8GB RAM) to support effective digital learning.	20,500	Enables more students to practice simultaneously and reduces waiting time during practice sessions
Smart Classroom Setup	Projector, projection screen, cables, mounting accessories	16,000	Makes classes more interactive through visual learning, presentations, coding demonstrations, and online workshops.
Offline Mentor Support	Stipend for local mentor/facilitator for next 6 months	12000	Ensures regular supervision, student engagement, attendance tracking, and continuity of learning activities
Internet, Electricity & Operational Costs	Internet recharge, electricity, maintenance, printing, consumables	5000	Keeps the center operational and accessible throughout the project period.
Basic Infrastructure	Essential furniture, including tables and seating arrangements, racks and storage units for materials and supplies	9,500	Creates a conducive learning environment by providing adequate seating, workspace, and storage facilities, enabling students to participate effectively in digital and educational activities.
Learning Resources & Educational Materials	Books, worksheets, stationery, activity kits	5,000	Strengthens foundational learning, communication skills, and self-learning habits.

Community Outreach & Student Engagement Activities	Parent meetings, awareness campaigns, climate and digital literacy events.	5,000	Increases community participation and student retention while expanding local impact
Operational Buffer and Emergency Reserve	Reserved for unforeseen or incidental expenses, equipment maintenance expense etc.	7,000	Ensures uninterrupted operations and financial resilience.

Total Funding Requirement: ₹80,000

Expected Impact Over the Next 6 Months:

- Improve digital access for 20+ existing students while preparing for increased enrollment.
- Establish a smart classroom environment through projector-based learning.
- Increase practical computer learning capacity by adding an additional computer.
- Provide consistent on-ground academic support through a local mentor.
- Strengthen student retention, attendance, and learning outcomes.
- Conduct monthly Climate & Sustainability Awareness Activities, including waste segregation, tree plantation drives, biodiversity education, kitchen gardening, water conservation awareness, and eco-friendly lifestyle practices.
- Organize practical environmental projects where students learn by doing, such as seed preservation, composting demonstrations, plastic-free campaigns, and community cleanliness initiatives.
- Deliver periodic Health & Well-being Awareness Sessions on nutrition, personal hygiene, menstrual health, first aid, mental well-being, and preventive healthcare with support from healthcare professionals.
- Build a stronger and more sustainable Digital Pathshala model that can be replicated in other villages.

Conclusion

Digital Pathshala is more than a digital learning centre — it is a platform that empowers rural students through **digital literacy, mentorship, climate awareness, and life skills education**.

With the successful completion of Round 01, we have built a strong foundation.

Round 02 will help us strengthen infrastructure, support local mentors, and sustain quality learning opportunities for the next seven months.

Your contribution will directly impact students by improving access to technology, enhancing classroom experiences, and supporting programs that foster education, health awareness, and environmental responsibility.

Together, we can create lasting opportunities for rural children and build a more informed, skilled, and sustainable future.
